**Why Blitz Productions?**

**With over 10 years of experience, our DJ's know how to make your night a musical success. They are versatile, knowledgeable and quick thinking individuals.**
**Blitz Productions only selects a few hand picked DJ's and entrusts them to make your guests move and groove.**
**Our DJ's know how to take you on a musical journey throughout your evening.**

**With Many DJ services to choose from, we believe that it is quality that will retain our customers rather than quanitity.**
**Other companies will employee many DJ's and be able to do many events in one night. We feel that the quality of DJ is lost in this tactic and it is nearly impossible to provide you with the kind of service you deserve such as one on one consultation with your DJ, personal contact regarding your event date at your request, the ability to discuss the in's and out's of your event with the person who will actually be DJ'n your event rather than an "office worker".**

**We invite all of our potential customers to come see us in action. Another company will tell you to come to their office so that a DJ can give you a "mock performance". Who wants to go to a stuffy office and see someone show them how to do the cha cha slide? How do you know what your DJ will be like the night of your event in front of 150 or more people? Will he or she crack under the pressure or will they pass with flying colors? This is why we invite all of our customers to see us in an actual setting.**

**Our knowledge, experience and versatility will combine to make your guests talk about your night for years to come.**

**We hope to see you soon!**
